### Terms and Conditions:

1. Each caregiver is limited to 3 cats, maximum 1 female cat.
2. All cats must be ear tipped without exception.
3. Caregivers are not allowed to choose which clinic to send the cats to.
4. Cats should not be given food and water from 10pm the night before surgery.
5. Cats must be sent in latest by 8.30am.
6. Late comers will not be entertained.
7. Cats that are not in a proper carrier or trap will not be accepted.
8. Cats will be rejected if food is found in the cage.
9. Cats must be picked up by 8.30pm. A penalty of \$100 will apply if cats are picked up after 8.30pm.
10. There are inherent risks in any surgical procedure and caregivers must accept that infections, sickness and even death, may occur despite the good faith of the clinic or hospital involved. The above risks may be greater for stray cats who are stressed from the ordeal of being trapped and then placed in an enclosed and strange environment.
11. Female cats have to be kept for at least 48 hours or until they are fully recovered before releasing back to the streets.
12. Male cats have to be kept for at least 24 hours before releasing back to the streets.

**Closing date for submission: 29 September 2009**
